JOIN THE FIGHT!!

H.A.C. Florida, Inc., is a NON-PARTISAN, non-profit, grassroots organization of concerned people fighting against the skyrocketing insurance premiums in Florida. We are fighting to have the government created "insurer of last resort" Citizens Property Insurance, and all insurance companies in Florida investigated and the return of affordable property insurance to Florida. That is our goal and mission. Property insurance in the state of Florida has become so expensive in just the last year that many homeowners are losing their homes because they can't afford the new exorbitant rates. This is not only due to the insurance claims in the past two years but mostly because of mismanagement, fraud, conflict of interest, government gone wrong, incompetence and a multitude of other issues as we see it.
